Abdullah Muhammad

has successfully completed the online Professional Certificate

IBM iOS and Android Mobile App Developer

The individuals with this Professional Certificate have showcased their competence in cross platform mobile app development on iOS and Android. The certificate holder has good knowledge of the software development lifecycle (SDLC), user interface and user experience (UI/UX) concepts, and tools required for mobile app development. They have demonstrated their skills and proficiency in building apps using HTML, CSS, JavaScript, Flutter, Dart, React Native and Swift. The certificate holder is familiar with Git and GitHub. Through engaging in hands-on projects, the certificate holder has demonstrated their competence in designing, developing, testing, deploying and updating Android, iOS, and cross-platform apps.
